Reports

Run standard reports

Standard reports have start and end dates, and up to 10 device IDs as the only input criteria.

Standard report results display on the screen in real time.

Save this report criteria so you can run it again in the future. *Schedule* it to run automatically.

Download the results.

The screenshot shows the Verizon ThingSpace Manage interface. At the top, there are navigation links for 'Manage Account' and 'Support'. Below that, a breadcrumb trail includes 'Reports'. The main section is titled 'Run report' and features a dropdown menu with options: 'Aggregated device usage', 'Daily usage' (selected), 'Data usage trending chart', 'Connected session history', 'Connection history', and 'Rated unbilled usage'. Below the dropdown, there is a search input field containing '990000696106956', start and end date pickers (Thu, 10/31/2019 to Wed, 11/06/2019), and 'Run' and 'Advanced' buttons. A 'Saved reports' icon is also visible. Below the search area, it says '7 Results' and provides download icons. A table displays the following data:

The screenshot shows the Verizon ThingSpace Manage interface for running a report. At the top, there's a navigation bar with 'Manage Account' and 'Support'. Below it, a menu includes 'Devices', 'Location', 'Software', 'Security', 'Diagnostics', 'Transactions', 'Reports', 'Alerts', 'Downloads', and 'Admin'. The main heading is 'Run report' with a dropdown menu set to 'Daily usage'. A 'Saved reports' icon is in the top right.

The 'Daily usage report' section includes a long alphanumeric ID, start and end dates (Thu, 11/28/2019 to Wed, 12/04/2019), and a red 'Advanced' button. Below this are four columns of filters: 'Accounts' (All), 'Service plans' (All, Test (Verizon), Test1 (Verizon), Chintan_Dynamic (...), M2MPublicDynamic (...), M2MPublicStatic (...), Tablet5GB (Verizo...)), 'Device groups' (All, DanielLiangTCM512, DanielLiangTCM513, Default: 0242078689-00..., DeviceGroup0904, DeviceGroup1009, Feb2018Prakash, FOTADevices, Gmo4GPublicDevice), and 'Custom fields' (TestField1, testfield2, CustomLabel3, CustomF4, Field5). A 'Table view' section on the right shows 'System Default' selected, along with 'TEST VIEW', 'NewUsageView', 'testview19', and 'MDNView'. A 'Create view' link is at the bottom of this section.

At the bottom of the filter section are 'Reset', 'Download', and 'Save' buttons. Below the filters, it says '29 Results' with icons for a report and download. A table of results is shown with columns: Device ID, MDN, Account, ESN, MEID, IMEI, ICCID, IP Address, and Usage date. The first row contains: 352653090122334, 15236130618, 0242078689-00001, (blank), (blank), 352653090122334, 89148000004701633144, 100.90.13.211, and 12/1/2019.
